OTTO 500

FIRE RATED SPEAKER MICROPHONE

NEW!

Whether in the fire or behind the hose, **OTTO 500** high temp fire speaker microphone exceeds the performance of any other speaker mic on the market. Designed to continue functioning even in extreme situations, the OTTO 500 gives fire professionals those critical minutes of communications that can mean the difference between life and death.

OTTO 500 is tested to function for more than five minutes at 500°F (260°C) utilizing special high-temperature materials in the case, cable and strain relief.

With full immersion capability in one meter of water for 31 minutes and exceptional debris protection including a removable grill and replaceable debris screen for easy cleaning, the durable OTTO 500 is the clear choice for extreme fire-fighting environments.

Mechanical Specifications:

- PTT switch life: 200,000 cycles
- Cable pull: 40 lbs
- 3 year limited warranty

Environmental Specifications:

- Withstands heat shock conditions of 500°F (260°C) for at least 5 minutes
